

Haughley in Bloom – GOOD NEWS!

To help support local community-based projects and ventures, our District Councillor Rachel Eburne, encouraged local applications for District Council Locality Awards.

I am delighted to report that our application for an award to support Haughley in Bloom was successful.

The award and on-going Parish Council support means that we can all look forward to a successful Haughley in Bloom re-launch!

We have already purchased

- and planted some spring bulbs,
- 10 railway sleepers to make new planters
- some compost
- some wood stain/preservative to begin treating the salvaged ½ barrel tubs as soon as the weather permits

We now plan to begin working on the following

- Complete our new planter siting and planting plans
- Treat the salvaged tubs as soon as is practicable
- Purchase some new planters for Haughley Old Street
- Construct and site the new planters made from the purchased railway sleepers
- Re-site our salvaged and treated planters, which we were lifted at the end of 2016
- Plant up all the planters in the Spring
- Review the outcomes of our efforts and develop a long-term plan

The siting scheme for the planters is by no means complete. Would you like to discuss the possibility of having one on a grassy site near your home? Or would you care to consider joining the Working Party? *Enquiries do not constitute any OBLIGATION to proceed.*
